TITLE: Playful souvenir

TITLE: TOP 10

AGE GROUP: 9-11

DURATION: 20 min

LEARNING OUTCOME: Provide opportunities for learners to understand the nature, sources and uses of money.

MATERIALS NEEDED: Smartphone or tablet and internet connection, a link to a quiz for students, enter a name and play (<https://wordwall.net/play/2172/659/101>). Link to a quiz that can be edited in the Wordwall application <https://wordwall.net/resource/2172659> . At this link you can edit the quiz (you must create your account), choose the language, write your questions, etc.

LESSON DESCRIPTION:

First, through the conversation, get acquainted with the most basic providers of financial products that students could understand, and then play a digital quiz to determine the understanding of the concepts of providers of financial products. The winner is the one who enters among the Top 10 players on the leaderboard in the quiz on financial products

Introduce students through a conversation with the most common and simplest financial service providers in the market, examples are given in the table

Providers of financial products	description of purpose
BANKS	for receiving salaries, credit cards, savings, loans, investments, insurance, online and mobile banking, all in one place
RESIDENTIAL SAVINGS BANKS	a form of savings aimed at resolving the housing issue, better interest rates than in a bank
PENSION FUNDS	savings to ensure a standard of living in old age, it is paid in the form of a monthly pension after the person retires
INSURANCE COMPANIES	provide financial protection to an individual, family or property in the case of unexpected events or damage (traffic accidents or at work, fires, earthquakes, floods, equipment failures, etc ...), insurance is not savings
INVESTMENT FUNDS	collect funds from their investors and place them in investments, various types of assets and capital (oil, gold, money, factories, equipment, etc ...), this is a type of savings where the yields are much higher than savings in the bank, but here there is a risk of losing money completely or making a big loss if the fund has not invested in good investments
CENTRAL BANK	there is only one in each state, it takes care of printing paper money and coins, maintains price stability, controls the work of all banks in the state, performs payments for the state and the state budget

TASK 11

Age 9-11

PRO-11

The link where the quiz Providers of financial products is locate, the student should enter the name and play the quiz, after the game can see if his result is among the Top 10 results of all players who played the quiz:
