

PRODUCTS

TITLE: Fidelity fiduciary bank

AGE GROUP: 7-8

DURATION: 160 mins

LEARNING OUTCOME: Enable learners to develop appropriate values, habits and attitudes when handling money. Provide opportunities for learners to understand the nature, sources and uses of money.

KEY CONCEPTS: savings, renunciations, rewards, euro

MATERIALS NEEDED: notebook, pencils, kitchen paper, glue, scissors, tempera paint, brushes, and coins.

LESSON DESCRIPTION

Start the lesson with a brainstorming activity. Lead the discussion and write down children's answers on the board. Have them copy it on their notebook.

After having presented the main concepts using pictures and tables, have the children watch "Fidelity Fiduciary Bank", a clip from *Mary Poppins* – the film, so as to help them understand the importance of savings.

After the video, lead a discussion using a comprehensible and motivating language. Encourage children to answer questions, tell stories and try to teach them the fundamentals of turn-taking abilities, help them remember what their classmates have already said and understand other people's point of view.

Finally, organise a small workshop so as to enhance their creativity: they will have to create a piggy bank using recycled materials.

Your role as a teacher will be to facilitate and manage the activities by creating a comfortable learning environment allowing your children to benefit from a positive relational atmosphere.
