TITLE: Home Or Bank Move

AGE GROUP: 7-8

DURATION: 30 mins

LEARNING OUTCOME: Provide opportunities for learners to understand the nature, sources and uses of money.

KEY CONCEPTS: savings, renunciations, rewards, euro

MATERIALS NEEDED: Playing dice, four play figurines, print the template in worksheet, pencil

LESSON DESCRIPTION

At the start of the game, each player receives £ 10 and that is the money he saved from his weekly pocket money.

They can keep this money at home in a piggy bank or invest in savings in a bank. The decision is to make a dice. Four players roll a dice and move as many places as the number of dice shows. When the player lands BANK skips the next throw.

A skip throw represents a year of savings. After a skip throw, the player resumes play and receives 20 pennies from the bank because the money has been in the bank for a year. The game lasts until all players reach the goal.

After that, the players fill in a table in which they enter how much money they have at the end of the game and together they calculate how much interest they have received. The winner is the player who has collected the most interest. In the case of the same amount of interest, the winner is the one who completed the game faster.
